<sup>2</sup> The measure reports on resolution of customer complaints across all subject matter throughout the District and the number includes all departments utilizing TrapezeCOM system for commendation and complaint research.

<sup>3</sup> Overall system complaints met goal in Q3, but individually, three carriers did not. TransDev and First Transit-Denver were stable in level of customer complaints compared to Q2 while First Transit-Commerce City slightly declined. All

three carriers had a high number of complaints related to missed service or late service (no show, bus late, discourtesy, passed up passengers at stop). We also noted a decrease in ridership for all carriers (including RTD) compared to each quarter in 2015. Transdev especially showed a large increase in “no show” complaints, most likely due to the number of routes that were dropped or returned to RTD due to lack of operator availability.
