Total:			206,392	notable downward movement				
Average boardings:			103,196	notable upward movement				

Rank without East/NW/I-225=rank without the stations that are less than a year old to compare against a year ago.

NR=station not ranked because it is less than one year old and is not comparable yet.

Total does not match system ridership figures reported by Finance, due to figures above not including special trains for events and miscellaneous ridership not attributed to a specific station. However, special event riders on regular trains are included in ridership averages. Includes secondary effects of normal holidays and school vacations.

Covers Automatic Passenger Counts from January 15, 2017 through May 20, 2017.
