

BE SAFE AROUND BUSES & TRAINS

- Always pay attention and avoid distractions when around trains and tracks.
- Stay behind the yellow line until the train stops and doors open.
- Always look left - right - left before crossing tracks. Trains can travel in both directions.
- Stop! If you see a train coming, wait for it to pass before crossing the tracks.

- Never chase or hit a moving bus.
- It's dangerous to walk in front of a bus or between buses. Wait until the bus drives away and look both ways before crossing the street.
- Always cross at designated crosswalks and obey the walk/don't walk pedestrian signals.
- Be sure to stay seated while the bus is moving. If you have to stand, hold on tightly to handrails and stay away from doors.
