

# FUEL COST

In the Metro Denver Region, the average cost of fuel peaked at \$3.87 per gallon in 2012. After reaching a low of \$2.15 in 2016, it increased to \$2.65 per gallon in 2018. **In 2019, there was a slight decrease (-5.6%).**

# COVID FUEL COST

COVID Stay-at-Home orders led to a decline in gas prices by discouraging travel. In the Metro Denver region, **gas prices reached their lowest point (\$1.60/gal) in early May**. As of mid-August, prices are returning to 2019 levels.
