Or to listen by phone: 720-928-9299  
Webinar ID: 868 0939 9350#  
Webinar Passcode: 1660#

## 1. Call to Order

## 2. Introductions

## 3. Roundtable

### • Participants

#### **Guests Participants**

- Maria DiBiase Eisemann, Policy Advisor, Special Projects, Transportation Fuels and Technology--Colorado Energy Office
- Bill Patterson, CFO – Via Mobility
- Chris Southwick, Mobility Innovation Coordinator – Town of Vail
- Andrew Kotz, PhD, Senior Research Engineer - Commercial Vehicles – National Renewable Energy Laboratory
- Kerry Bowden, Assistant Chief Maintenance Officer New Bus Project Management, Bart Coppola, Assistant Chief Maintenance Officer Zero Emissions and R&D – New York City Transit

#### **RTD Staff**

- Debra Johnson, General Manager and CEO, Michael Ford, COO, Fred Worthen, AGM Bus Operations, Henry Stopplecamp, AGM Capital Programs

### • Proposed Questions

- What are you or your agency doing, or have you done in electrification and transition to net zero that you feel would be relevant to RTD?
- What issues would you recommend we consider and address immediately? What has worked and what would you do differently or what should we watch out for?

- We expect to work with staff to set a goal for achieving net zero emissions by a date certain. Has your agency set a date and what do you believe is reasonable?
- How are you funding this work (or how should we be funding it)?

**4. Other Matters**

**5. Next Meeting Date – TBD**

**6. Adjourn**
